- *Escherichia coli*
- *Pseudomonas aeruginosa*
- *Proteus mirabilis*
- *Serratia marcescens*

### Fungi

- *Candida albicans*
- *Trichosporon asahii*

## BIAKŌS Works Synergistically

The patented technology and ingredients in BIAKŌS work to:

### Eradicate...

planktonic, immature and mature biofilms.

### Attack...

Gram-negative bacteria, Gram-positive bacteria and fungi.

### Support...

normal wound-healing pH.

### Neutralize...

odors emitted from wounds.

### Create...

a safe environment conducive to healing.

**With a simple spray, an ideal environment for healing could be seconds away.**
